

# AROUND TOWN

Welcome to our custom content page meant to highlight unique news from the Windsor-Essex region

## BRIGHT GREEN ROOF

Bright Green Roof Windsor has launched the first and only roofing preservation service. Finally, there is an alternative to a roof replacement. The Windsor based franchise was born during the pandemic, with a focus on helping Windsor's homeowners save thousands on home maintenance during this difficult time. Their bio-based preservation solution adds 5-10 years of life to a roof, enhances colour, and improves resistance to the elements. With the roofing industry generating over 15 million tonnes of waste annually across North America, Bright Green Roof is an advocate for a healthier carbon footprint. Get your questions answered from the Bright Green Roof family directly at 519-800-0399, or visit [www.RoofPreservation.ca](http://www.RoofPreservation.ca)

## 519CULTURE

Born and raised in Windsor, Essex County, creator of 519Culture Serena Koehl, holds a passion for people. Missing the farmers markets, live music shows and connecting with others laid the foundation in creating 519Culture, a local lifestyle box. In late March 2020, Serena hit the ground running with an idea to support small businesses and help people discover the Windsor Essex lifestyle. This concept was interesting, and Serena quickly had businesses jump on board. Each box includes a variety of products, services, and coupons to help navigate the amazing things going on in our community. It's a new way to explore and support local businesses plus experience their products/services with the convenience of delivery to your door. Join the 519Culture and visit [www.519culture.ca](http://www.519culture.ca) for more information about how to get involved and give the gift that everyone wants.
